

IN THE CLAIMS

Please cancel claims 6 and 9 without prejudice or disclaimer and amend the claims as follows:

1. (Currently Amended) A reversible molding having a plurality of decorative faces wherein at least two of said faces differs in at least one property selected from the group consisting of texture, design, pattern, and color ~~and shape~~, wherein said faces have the same shape.

2. (Previously Presented) The reversible molding of claim 1, wherein the molding comprises a wood product selected from the group consisting of particle board, MDF, HDF and veneered lumber.

3. (Previously Presented) The reversible molding of claim 1, wherein the decorative face is at least one selected from the group consisting of foil, laminate, veneer, paint, stain, and clear protective material.

4. (Previously Presented) The reversible molding of claim 1, wherein at least one decorative face comprises a printed decor paper and an overlay of α -cellulose.

5. (Previously Presented) The reversible molding of claim 1, wherein at least one decorative face comprises laminate.

6. (Cancelled).

7. (Currently Amended) The reversible molding of claim 1, wherein each of said faces is in the shape of a wall base molding.

8. (Currently Amended) The reversible molding of claim 1, wherein each of said faces is in the form of at least one molding selected from the group consisting of a quarter round and base shoe.

9. (Cancelled).

10. (Previously Presented) The combination of a floor and wall joint with the reversible molding of claim 1.

11. (Previously Presented) The combination of a ceiling and wall joint with the reversible molding of claim 1.

12. (Previously Presented) The combination of a laminate floor and wall joint with the reversible molding of claim 1.

13. (Previously Presented) The combination of at least one laminate panel selected from the group comprising a laminate wall panel and a laminate ceiling panel; in combination with the reversible molding of claim 1.

14. (New) A reversible molding having a plurality of decorative faces wherein at least two of said faces differ in at least one property selected from the group consisting of texture, design, pattern, color and shape, and at least one of said faces comprise at least one selected from the group consisting of foil, laminate, and veneer.

15. (New) The reversible molding of claim 14, wherein the reversible molding comprises a core comprising one selected from the group consisting of particle board, MDF and HDF.

16. (New) The reversible molding of claim 14, wherein at least one of said faces comprises a foil.
17. (New) The reversible molding of claim 14, wherein at least one of said faces comprises a laminate.
18. (New) The reversible molding of claim 17, wherein said laminate comprises a printed decor paper and an overlay of alpha-cellulose.
19. (New) The reversible molding of claim 17, wherein said laminate comprises hard abrasive resistant particles.
20. (New) A method of reducing molding inventories comprising:
offering a molding, said molding comprising a plurality of decorative faces wherein at least two of said faces differ in at least one property selected from the group consisting of texture, design, pattern, color and shape, and at least one of said faces comprise at least one selected from the group consisting of foil, laminate, and veneer.
21. (New) The reversible molding of claim 14, wherein each of said faces comprises at least one selected from the group consisting of foil and laminate.
22. (New) The reversible molding of claim 14, wherein at least one of said faces is in the shape of a wall base molding.
23. (New) The reversible molding of claim 22, wherein at least a second one of said faces is in the form of at least one molding selected from the group consisting of a quarter round and base shoe.

24. (New) The reversible molding of claim 14, wherein at least one of said faces is in the form of at least one molding selected from the group consisting of a quarter round and base shoe.
